About Me

Since I have a Bachelor's Degree in Civil engineering from the ITM Group of Institutions. After gaining experience for more than five years, I showed my interest in a web or software-related job. To gain Knowledge or become an expert in this field, I have completed the Front End Development Course from Sharpener Tech, Bengaluru, India, which enabled me to get hands-on experience in cloning the famous website using JavaScript, HTML, CSS, React js, Bootstrap etc. I tend to view myself as a professional and solution-oriented person who thrives in a challenging environment, continuing to learn a new language, and developing techniques.

Skills

Frontend: React js, Javascript, HTML, CSS, Bootstrap

Related: Redux-Toolkit, Rest API

Work Experience

Web Development Intern / CodeAlpha 10th Nov 2023 - 10th Dec 2023

- In this one month internship, I have made projects like Todo App, Age Calculator etc.

Site Engineer / Ganesh Infraprojects Oct 2019 - Aug 2022, Janupur, UP

- Proper Inspection of laying of water pipeline of different Diameters.
- To inform the project manager and senior engineer about the task.
- Managing the whole work with the coordination of contractors.
- Making of BBS of Elevated Service Reservoirs.
- Daily inspection of ongoing work as per structural drawing & IS code.

Site Engineer / Rean Watertech Dec 2017 - Sep 2019, Khajuraho, MP

- Pre-calculation of material's quantity before execution of work
- To make the BBS as per drawings
- To prepare a daily progress report and send it to the respective authority
- Coordinating with pipeline contractors to lay out the pipeline works successfully.

Junior Engineer / Sagar Dwellings

Apr 2016 - Nov 2017, Gwalior, MP

- Day-to-day supervisor of ongoing construction work.
- Technical checking of the ongoing work as per structural Drawings.
- Cooperate with the storekeeper by supplying labourers for unloading the material received on the site.

Project Experience

Sephora Cosmetic Site Clone / HTML, CSS, Javascript

Live: [Sephora \(sephora-cosmetic.vercel.app\)](https://sephora-cosmetic.vercel.app)

I crafted two stunning landing pages for Sephora's cosmetics website using HTML, CSS, and a touch of JavaScript, enhancing their visual appeal. I've enriched them with captivating designs and functionalities.

Ecommerce Art App / React JS, Javascript, HTML, CSS

Live: <https://ecommerce-auth-a598c.web.app/>

I made an ECommerce application where users will get the option to see different products and add them to their cart. Moreover i have created a login form so that users could access their cart when they login first.

Restaurant App / React JS, Javascript, HTML, CSS

Live: [React App \(restaurant-app-udvikas.vercel.app\)](https://restaurant-app-udvikas.vercel.app)

I made an restaurant application where users can add dishes to add to cart and in the cart card. moreover they can increase or decrease the quantity as per their choice and they can delete the items as well. I made the application visually appealing so that users could get a good experience.

Education

Sharpener Tech / Front End development / 2023

React JS, Javascript, HTML, CSS, Bootstrap

Portfolio: <https://encr.pw/vikas-portfolio>

ITM Group of Institution / Civil Engineering / 2014

This is a four year Degree Course. In this course, I gained theoretical as well as practical knowledge and applied it on major and minor projects.
